INDEX TO VOLUME 35

Abies 418
Abrin 340, 342
Abrus 333, 340, 342
Abutilon 117
Acacia 96, 118, 145–146, 149, 156–158, 168, 170, 174, 176–179, 182–184, 329, 334, 400, 411, 417
Acacipetalin 334–335
Acalypha 115
Acanthosicyos 460
Aches and pains 153
Achillea 148–149, 151–152, 156–157
Achyranthes 107
Achyranthus 6
Actiniopteris 129
Adenia 120
Adenium 108
Adenostemma 6
Adhesives 379
Aerva 107
African oil palm 268
Afzelia 176
Agaricus 129
Agave 417
Agglutinin 340
Agriculture 70–88
Agrocybe 129
Agroecology 410–411
Albuca 128
Alder, red 441
Alfalfa 215, 321, 342, 345–346
Alfalfa saponins 342
Algarobina 183
Alhagi 146, 148
Alkali disease 344
Alkaloids 321–322, 325–326, 329–331
Allium 154
Alnus 441
Alocasia 389
Aloe 89–95, 128
Alsike clover 346
Alternanthera 107, 297–298
Amaranthus 107, 432
Amazon Valley 262
Amino acid 265, 267, 300, 321
Amino acid toxins 331–333
Ammocharis 124
Anabasis 147–149, 153, 157
Anagyrine 326
Andrachne 151
Annual meeting, SEB 3, 254
Antibacterial 409
Antibiotic 34
Anticharis 122
Antidiabetic 409
Antifeedants, insect 409
Antifertility 335
Antifungal properties 34
Antihelmint 114
Antimoth deodorant 156
Antioxidant properties 35
Antiviral properties 409
Apios 165, 272
Apodanthera 460
Aptosimum 122
Aquaculture 383
Aquatic weeds 296–299
Arachis 218, 300, 333, 340
Arachne 125
Archeological cucurbits, Thomas W. Whitaker 460–466
Argemone 424
Arhar 308
Arisaema 6
Aristida 125
Aristolochia 108
Arnebia 158
Arrow poison 108
Arrows 124
Artemisia 148–151, 153, 156–157
Asclepias 467
Asparagus 128, 151
Aspilia 112
Astericus 147–148
Astilbe 6
Astragalus 146, 332, 341, 343, 346
Astringents 45, 345
Astrocaryum 263
Atriplex 146, 149, 154–156, 179
Attar of rose 42, 47
Atylosia 164
Auricularia 129
Australia 163–173
Austrodolichos 165
Avicenna 157
Azadirachta 182, 398–414, 451
Azeredo Penna 1–3
Azotobacter 207
Bacopa 297
Bacteria 204–223
Bactris 263
Bailey, Clinton, and Avinoam Danin, Bedouin plant utilization in Sinai and the Negev 145–162
Balandrin, Manuel F. 321–355
Balanites 101, 109
Balick, Michael J., and Stanley N. Gershoff, Nutritional evaluation of the *Jessenia bataua* palm: Source of high quality protein and oil from tropical America 261–271

Balsams 375
Baptisia 326
Barleria 106
Barrenness 152, 153
Basilicum 116
Basin of Mexico 415–433
Baskets 129, 156, 436
Bassia 451
Battarea 129
Beach asparagus 441
Beads 122
Bean 164, 240–254, 300, 418, 422, 424, 429, 431, 460
Bean, red kidney 433
Bean, wild 240–254
Bean, winged 164, 166
Becium 116
Bedouin plant utilization in Sinai and the Negev, Clinton Bailey and Avinoam Danin 145–162
Bee sting 152
Begonia 6
Benavides, R. 89–95
Bengal gram 303–306
Benzene 373, 376
Berchemia 121
Beverage plants 155, 265
Bhuvaneswari, T. V., Recognition mechanisms and infection process in legumes 204–223
Bidi cigarettes 450–459
Biocidal 408
Bioconversion 225
Biogas 228
Biomass 168, 174, 224–232, 369–382, 391–397
Biomass fuels 168
Bites and stings 152
Black locust 342
Blainvillea 113
Bleeding nose 153
Blepharis 101, 106
Blind staggers 344
Bloat 345
Blueberry, Alaska 445
Blumea 112
Boerhavia 6, 119
Boils 409
Boscia 101, 111
Boswellia 110
Botanochemicals: Supplements to petrochemicals, Shih-chi Wang and J. B. Huffman 369–382
Bowls 156
Bows and arrows 123
Boyd, Claude E., and Paul S. McGinty, Percentage digestible dry matter and crude protein in dried aquatic weeds 296–299
Brachiaria 125
Brachystegia 176
Brasenia 297
Brassica 438
Broadbean 209
Bromus 148
Browse plants 176–177, 403
Brush, Stephen B., Heath J. Carney, and Zósimo Huamán, Dynamics of Andean potato agriculture 70–88
Brycon 383–390
Buffalo gourd 179
Bulbostylis 125
Bunchberry 444
Burkea 176
Burns 89
Bush fallow 400, 411
Butadiene 370
Butea 6
Butylene 370
Cabomba 297
Cadaba 111
Cajanus 301, 308–312
Calendula 155
Caley pea 332
Calotropis 108, 157, 467–472
Calotropis procera as a source of plant hydrocarbons, M. D. Erdman and B. A. Erdman 467–472
Camel saddle 157
Camphene 375
Canavalia 333, 340
Canna 166
Cannabis 6
Canoes 434, 436
Capparis 111, 150, 152, 155, 157–158
Capsicum 71
Caralluma 108
Cardiospermum 122
Carnauba palm 377
Carney, Heath J. 70–88
Carob 175, 179
Carrichtera 148, 154
Cassava 163, 356–362
Cassia 104, 111, 151
Castor 406
Cattail 426
Caucanthus 117
Cayratia 168, 170
Cedar, red 436, 439
Cedar, western red 434
Cedar, yellow 439
Celery, Indian 444
Cellulose 371
Celosia 107
Cenchrus 126
Centaurea 147–149, 154
Center of domestication 71

Ceratonia 175, 179
Ceratophyllum 296–299
Cercidium 174–175, 177, 179, 180
Chaestostichum 126
Chamaecyparis 439
Chanar 182
Chara 296–299
Charcoal 157, 182, 397, 429
Chascanum 124
Chemical feedstocks 369–382
Chenolea 149
Chenopodium 71, 112, 233–239, 424–425, 433
Chickpea 300–301, 303–306, 316
Chicle 450
Chili peppers 71
Chinampa mound 432
Chinese tallow tree 391–397
Chloris 126
Chlorophora 402
Chlorophytum 128
Chrozophora 115
Chrysopogon 126
Chuño 74
Cicer 301, 303–306
Cineole 62
Cissus 124
Cistanche 120, 154
Citronellol 377
Citrullus 114, 146, 152, 157
Citrus 377
Clark, R. J., and R. C. Menary, Variations in composition of peppermint oil in relation to production areas 59–69
Classification of cultivated potatoes 72
Claveria 129
Cleome 111, 152–153
Clitoria 120, 165, 168, 170, 172
Clothing 436
Cloudberry 442
Clouse, W. J. 89–95
Clover 345
Clover, red 344–346
Clover, white 205, 211, 215
Cnidorcolus 389
Coal 369
Coatings 377
Coccinia 114
Cocculus 118
Cola 406
Colchicum 147
Coleus 116
Colic 151
Colutea 154, 156–157
Combretum 104, 112
Commelina 125
Commicarpus 119
Comminuted meat products 285
Commiphora 104, 110
Common bean 240–254
Conavalia 209
Concanavalin A 340
Condiments 155, 383, 388
Congo pea 308
Conostomium 121
Constipation 151
Construction materials 156, 264
Control of desertification 174
Convolvulus 151
Conyza 113
Copaiba tree 375
Copaifera 375
Copals 450
Copernicia 377
Coprolites 435
Corbichonia 107
Corchorus 123
Cordia 96, 99, 101–103, 110
Coriolopsis 129
Corn 418, 460
Corn-and-bean agriculture 418
Corn-bean-squash complex 460
Cornus 444
Coronilla 340, 345
Cosmetics, medical 409
Cough medicine 121, 124, 150
Coumarins 322
Coumestan estrogenic principles 321, 333–339
Coumestans 335, 337
Coumestrol 336
Cowles, Joe R. 391–397
Cowpea 215
Crabapple, Pacific 442
Cranberry 445
Crataegus 154–155
Crataeva 112
Crinipellis 129
Crinum 125
Crooked calf disease 325
Crossocephalum 6
Crotalaria 101, 120, 326–329
Croton 115
Crown vetch 340, 345
Crude oil 284
Crude protein 296–297
CSM 285
Cucumella 114
Cucumis 114
Cucurbita 179, 460–466
Cucurbits 460–466
Cudrania 25
Curcuma 6
Currants 442
Curroria 109
Cyanide poisons 333

Cyanogenic glycosides 333–334, 356
Cyanogens 321, 333
Cyathus 129
Cyclocheilon 115
Cymbopogon 126
Cynanchum 109
Cynodon 126, 148, 401
Cynomorium 151
Cyperus 101, 125
Cyphostemma 124
Dactyloctenium 126
Dalbergia 176
Dalea 179, 181
Dalechampia 115
Damars 375, 450
Damask rose 42–58
Daniellia 176

Winged bean 164, 166
Winters, W. D., R. Benavides, and W. J. Clouse, Effects of aloe extracts on human normal and tumor cells in vitro 89–95
Withania 123
Wolf bite 154
Wolverton, B. C., and Rebecca C. McDonald, Energy from vascular plant wastewater treatment systems 224–232
Wood 32, 182
Wood carvings 183
Woody biofuels 182
Woody biomass 182, 391–397
Woody biomass potential of the Chinese tallow tree, Herbert W. Scheld and Joe R. Cowles 391–397
Wounds 128, 409
Xylans 372
Xylose 372
Yam 169, 172
Yam bean 164
Yew, Pacific 436
Yew, western 434
Yuba 281
Yuca 356
Yucca 417
Zaleya 107
Zaluzania 417
Zea 187–203, 420, 422, 460
Zilla 148
Zizaniopsis 297
Ziziphora 156
Ziziphus 104, 121, 155
Zygophyllum 124, 149, 151, 153

INDEX TO BOOK REVIEWS IN VOLUME 35

Amber: The golden gem of the ages, Patty C. Rice 259–260
An atlas and annotated list of the vascular plants of Arkansas, Edwin B. Smith 473
An atlas of airborne pollen grains and common fungus spores of Canada. I., John Bassett, Clifford W. Crompton, and John A. Parmelee 255
Barnes, Burton V. 256
Bassett, John, Clifford W. Crompton, and John A. Parmelee, An atlas of airborne pollen grains and common fungus spores of Canada. I. 255
Baum, Bernard R., The genus *Tamarix* 259
Behrendt, Siegfried, and Martin Hanf, Grass weeds in world agriculture. Identification in the flowerless state 256–257
Benson, Lyman, Plant classification 320
Bernatzky, A., Tree ecology and preservation 136–137
The biology and taxonomy of the Solanaceae, J. G. Hawkes, R. N. Lester, and A. D. Skelding, ed. 138–139
Bondartzeva, M. A. 459
The botany and chemistry of hallucinogens, Richard Evans Schultes and Albert Hofmann 473–474
Brockway, Lucile H., Science and colonial expansion: The role of the British Royal Botanic Gardens 139–140
Bryophyte systematics, G. C. S. Clarke and J. G. Duckett, ed. 449
Buddenhagen, I. W., and G. J. Persley, ed., Rice in Africa 476
Campbell, Christopher S., and Fay Hyland, Winer keys to woody plants of Maine 479
Carnivorous plants, Adrian Slack 477
Cashew, J. G. Ohler 88
Checklist of United States trees (native and naturalized), Elbert L. Little, Jr. 69
Cherniak, Lawrence, The great books of hashish. Volume 1: Book 1. Morocco, Lebanon, Afghanistan, the Himalayas 362
Clarke, G. C. S., and J. G. Duckett, ed., Bryophyte systematics 449
The complete trees of North America. Field guide and natural history, Thomas S. Elias 482
Conklin, Harold C., Folk classification: A topically arranged bibliography of contemporary and background references through 1971 144
Coon, Nelson, Using wild and wayside plants 9
Cranfill, Ray, Ferns and fern allies of Kentucky 475–476
Crompton, Clifford W. 255
Cutter, Elizabeth G., Plant anatomy. Part I. Cells and tissues 135
Deacon, J. W., Introduction to modern mycology 480–481
A dictionary of botany, R. John Little and C. Eugene Jones 257–258
Dirr, Michael A., Photographic manual of woody landscape plants 382
Duckett, J. G. 449
Ecology and phytogeography of high-altitude plants of the northwest Himalaya. Introduction to high altitude botany, M. S. Mani 480
Elias, Thomas S., The complete trees of North America. Field guide and natural history 482
Encyclopedia of common natural ingredients used in food, drugs and cosmetics, Albert Y. Leung 479
Eplee, R. E. 260
Erichsen-Brown, Charlotte, Uses of plants for the past 500 years 258
Everett, Thomas H., The New York Botanical Garden illustrated encyclopedia of horticulture 474–475
Ewan, Joseph, ed., Flora Americae septentrionalis, Frederick Pursch 365
Ferns and fern allies of Kentucky, Ray Cranfill 475–476
Flora Americae septentrionalis, Frederick Pursh. Joseph Ewan, ed. 365
The flora of Canada, H. J. Scoggan 142
Flowering plants of the world, V. H. Heywood, ed. 134
Folk classification: A topically arranged bibliography of contemporary and background references through 1971, Harold C. Conklin 144
Food and drugs in America, Eiline Kingsley 382
Forest ecology, Stephen H. Spurr and Burton V. Barnes 256
Frohne, Dietrich, and Uwe Jensen, Systematik des Pflanzenreichs, unter Besonderer Berücksichtigung Chemischer Merkmale und Pflanzlicher Drogen 140
Fungi of the USSR, M. V. Gorlenko, M. A. Bondartzeva, L. V. Garibova, I. I. Sidorova, and T. P. Sizova 459
Garibova, L. V. 459
Gather ye wild things: A forager's year, Susan Tyler Hitchcock 259
The genus *Tamarix*, Bernard R. Baum 259
Gorlenko, M. V., M. A. Bondartzeva, L. V. Garibova, I. I. Sidorova, and T. P. Sizova, Fungi of the USSR 459
The gourd book, Charles B. Heiser, Jr. 481–482

Grass weeds in world agriculture. Identification in the flowerless state, Siegfried Behrendt and Martin Hanf 256–257
The great books of hashish. Volume 1: Book 1. Morocco, Lebanon, Afghanistan, the Himalayas, Lawrence Cherniak 362
The Great Dismal Swamp, Paul W. Kirk, Jr., ed. 481
Guedes, Michel, Morphology of seed plants 143
Haegeman, J., Tuberous begonias. Origin and development 478
Hanf, Martin 256–257
Haustorium. Parasitic plants newsletter 260
Hawkes, J. G., R. N. Lester, and A. D. Skelding, ed., The biology and taxonomy of the Solanaceae 138–139
Heiser, Charles B., Jr., The gourd book 481–482
Herbaceous ornamental plants, Steven Still 368
Herbs and spices. The pursuit of flavour, Waverly Root, ed. 366
Heywood, V. H., ed., Flowering plants of the world 134
Hitchcock, Susan Tyler, Gather ye wild things: A forager's year 259
Ho, Feng-Chi, Tropical plants of Taiwan in color. II. 141
Hofmann, Albert 366–367, 473–474
Holm-Nielsen, Lauritz B. 140–141
Horticultural Reviews, Vol. 1, 1979 367–368
Horticultural science, Jules Janick 477–478
Hyland, Fay 479
Identifying seedling and mature weeds common in the southeastern United States, Jon M. Stucky 257
Introduction to modern mycology, J. W. Deacon 480–481
Janick, Jules, Horticultural science 477–478
Jensen, Uwe 140
Jones, C. Eugene 257–258
Kinghorn, A. Douglas, ed., Toxic plants 137–138
Kingsley, Eiline, Food and drugs in America 382
Kirk, Paul W., Jr., ed., The Great Dismal Swamp 481
Larsen, Kai, and Lauritz B. Holm-Nielsen, ed., Tropical botany 140–141
Leaf protein and other aspects of fodder fractionation, N. W. Pirie 136
Lehrbuch der Pflanzenphysiologie, H. Mohr and P. Schopfer 135–136
Lester, R. N. 138–139
Leung, Albert Y., Encyclopedia of common natural ingredients used in food, drugs and cosmetics 479
Lewis, Walter H., ed., Polyploidy: Biological relevance 239
Little, Elbert L., Jr., Checklist of United States trees (native and naturalized) 69
Little, R. John, and C. Eugene Jones, A dictionary of botany 257–258
Louisiana ferns and fern allies, John W. Thieret 271
Mani, M. S., Ecology and phytogeography of high-altitude plants of the northwest Himalaya. Introduction to high-altitude botany 480
Mohr, H. and P. Schopfer, Lehrbuch der Pflanzenphysiologie 135–136
Morphology of seed plants, Michel Guedes 143
Muenscher, Walter Conrad, Weeds 9
Mussell, Harry, and Richard C. Staples, ed., Stress physiology in crop plants 255–256
Musselman, L. J., A. D. Worsham, and R. E. Eplee, ed., Proceedings (of) the second international symposium on parasitic weeds 260
Musselman, L. J., A. D. Worsham, and R. E. Eplee, ed., Supplement to proceedings (of) the second international symposium on parasitic weeds 260
Nagy, Steven, and Philip E. Shaw, ed., Tropical and subtropical fruits. Composition, properties and uses 483–484
The New York Botanical Garden illustrated encyclopedia of horticulture, Thomas H. Everett 474–475
Norman, A. Geoffrey, ed., Soybean physiology, agronomy, and utilization 134–135
North, C., Plant breeding and genetics in horticulture 478
Norton, G., Plant proteins 223
Ohler, J. G., Cashew 88
The organic constituents of higher plants, Trevor Robinson 479
Parasitic plants newsletter, Haustorium 260
Parmelee, John A. 255
Persley, G. J. 476
Photographic manual of woody landscape plants, Michael A. Dirr 382
Pirie, N. W., Leaf protein and other aspects of fodder fractionation 136
Plant anatomy. Part I. Cells and tissues, Elizabeth G. Cutter 135
Plant breeding and genetics in horticulture, C. North 478
Plant classification, Lyman Benson 320
Plant proteins, G. Norton 223
Plants of the gods. Origins of hallucinogenic use, R. E. Schultes and A. Hofmann 366–367
Plant taxonomy and biosystematics, Clive A. Stace 482–483
Poisonous plants of the central United States, H. A. Stephens 299
Polyploidy: Biological relevance, Walter H. Lewis, ed. 239
Proceedings (of) the second international sym-

posium on parasitic weeds, L. J. Musselman, A. D. Worsham, and R. E. Eplee, ed. 260
Pursh, Frederick, Flora Americae septentrionalis, Joseph Ewan, ed. 365
Rice in Africa, I. W. Buddenhagen and G. J. Persley, ed. 476
Rice, Patty C., Amber: The golden gem of the ages 259–260
Robinson, Trevor, The organic constituents of higher plants 479

ECONOMIC BOTANY

Devoted to Past, Present, and Future Uses of Plants by Man

Founded by

Edmund H. Fulling

Publication of The Society for Economic Botany

VOLUME 35

1981

Published for The Society

by

THE NEW YORK BOTANICAL GARDEN

Printed by
Allen Press, Inc.
Lawrence, Kansas

NUMBER 1
January–March 1981

Leonam de Azeredo Penna and Pio Corrêa's Dictionary of Useful Plants of Brazil — *Walter B. Mors* — 1

Ethnobotany of Meghalaya: Medicinal Plants Used by Khasi and Garo Tribes — *R. R. Rao* — 4

Soybean Seed Protein Electrophoresis Profiles from 15 Asian Countries or Regions: Hypotheses on Paths of Dissemination of Soybeans from China — *T. Hymowitz and N. Kaizuma* — 10

Osage Orange (*Maclura pomifera*): History and Economic Uses — *Jeffrey L. Smith and Janice V. Perino* — 24

History and Utilization of *Rosa damascena* — *Mark P. Widrlechner* — 42

Variations in Composition of Peppermint Oil in Relation to Production Areas — *R. J. Clark and R. C. Menary* — 59

Dynamics of Andean Potato Agriculture — *Stephen B. Brush, Heath J. Carney, and Zósimo Huamán* — 70

Effects of Aloe Extracts on Human Normal and Tumor Cells in Vitro — *W. D. Winters, R. Benavides, and W. J. Clouse* — 89

Ethnobotany of the Turkana: Use of Plants by a Pastoral People and their Livestock in Kenya — *W. T. W. Morgan* — 96

Report on Twenty-first Annual Meeting, SEB — *C. Earle Smith, Jr.* — 131

Book Reviews — 9, 69, 88, 134

Notices — 3, 41

Issued 24 February 1981

NUMBER 2
April–June 1981

Bedouin Plant Utilization in Sinai and the Negev
Clinton Bailey and Avinoam Danin 145

Tuberous Legumes: Preliminary Evaluation of Tropical Australian and Introduced Species as Fuel Crops *E. C. Saxon* 163

Uses of Tree Legumes in Semiarid Regions *Peter Felker* 174

Variation within Teosinte. I. Numerical Analysis of Morphological Data
J. S. C. Smith, M. M. Goodman, and R. N. Lester 187

Recognition Mechanisms and Infection Process in Legumes
T. V. Bhuvaneswari 204

Energy from Vascular Plant Wastewater Treatment Systems
B. C. Wolverton and Rebecca C. McDonald 224

Domesticated *Chenopodium* of the Ozark Bluff Dwellers *Hugh D. Wilson* 233

What is the Origin of the Common Bean? *Lawrence Kaplan* 240

Book Reviews 223, 239, 255

Notes 186, 254

Issued 12 May 1981

NUMBER 3
July–September 1981

Nutritional Evaluation of the *Jessenia bataua* Palm: Source of High Quality Protein and Oil from Tropical America
Michael J. Balick and Stanley N. Gershoff 261

Taxonomy of the Genus *Glycine*, Domestication and Uses of Soybeans
T. Hymowitz and C. A. Newell 272

Traditional Uses and Folklore of *Hypericum* in the British Isles
A. R. Vickery 289

Percentage Digestible Dry Matter and Crude Protein in Dried Aquatic Weeds
Claude E. Boyd and Paul S. McGinty 296

Diseases of Chickpea, Lentil, Pigeon Pea, and Tepary Bean in Continental United States and Puerto Rico *Walter J. Kaiser* 300

Toxic Constituents of Legume Forage Plants
Stanislaus J. Smolenski, A. Douglas Kinghorn, and Manuel F. Balandrin 321

Modernized Preparation of Casave in the Llanos Orientales of Venezuela
David S. Seigler and José F. Pereira 356

Book Reviews 271, 299, 320, 362, 363

Notices 295

Issued 10 July 1981

NUMBER 4
October–December 1981

Botanochemicals: Supplements to Petrochemicals
Shih-chi Wang and J. B. Huffman 369

Feeding and Trapping Fish with *Piper auritum* *Luz Graciela Joly* 383

Woody Biomass Potential of the Chinese Tallow Tree
Herbert W. Scheld and Joe R. Cowles 391

Vegetative Fallows and Potential Value of the Neem Tree (*Azadirachta indica*) in the Tropics *S. A. Radwanski and G. E. Wickens* 398

Vegetation and Man in the Basin of Mexico
C. Earle Smith, Jr. and Paul Tolstoy 415

Plant Use in Kaigani Haida Culture: Correction of an Ethnohistorical Oversight *Helen H. Norton* 434

Tendu (*Diospyros melanoxylon*) Leaves, Bidi Cigarettes, and Resource Management *J. Robert Hunter* 450

Archeological Cucurbits *Thomas W. Whitaker* 460

Calotropis procera as a Source of Plant Hydrocarbons
M. D. Erdman and B. A. Erdman 467

Book Reviews 382, 449, 459, 473

Notes 484

Statement of Ownership 484

Index to Volume 35 485

Index to Book Reviews in Volume 35 498

Issued 28 September 1981
